

Problem 3_Installation of packages using *Pak*

Macarena López-Mayorga

2026-02-23

Preliminary actions

```
# First, *pak* needs to be installed
```

```
install.packages("pak")
```

```
# Then, *pak* needs to be activated
```

```
library(pak)
```

Now, I can install *broom*, *cytoMEM* and *DillonHammill/CytoExploreR* using *pak*. Let's go!
broom

```
# *broom* is a package located in the CRAN repository
```

```
pak::pkg_install("broom")
```

```
